

3M Foam Earplugs, Corded

Model : 1110

Product Details

- Smooth, dirt-resistant surface provides better hygiene
- Earplugs are easy to roll up for a quick and easy fit
- Tapered design fits comfortably in ear canals
- Soft polyurethane foam
- Noise Reduction Rating (NRR) 29 dB, CSA Class AL
- Lanyard allows earplugs to be stored comfortably around the neck between uses

3M 1100 Earplugs are made with soft foam and a tapered design to help provide a noise blocking seal. These earplugs are easy to roll down and insert, with the foam softening with body temperature to improve comfort over extended use. One size fits most.

Slow recovery foam gives the user time to get the compressed foam cylinder (rolled down earplug) into the ear before the foam fully expands to fill the ear canal. Available with or without cords to suit user preference. Dispenser packaging option available. This product is EARfit testable to help validate the level of protection the individual user is getting.

Specifications	
Attenuation Rating	29.0 Decibel
Banded	No
Brands	3M
CSA Class	CSA Class AL
Cord Color	Red
Cord Material	Cloth
