Back D-ring, PVC coated hardware, Nomex®/Kevlar® fiber webbing, pass-thru buckle leg straps (size Universal).

Delta harnesses combine a set of “industry-first” advancements, with popular features making them the workhorse of the industry. Today’s Delta™ represents the culmination of more than twenty years of design, research, manufacturing know-how and on-the-job performance. Delta harnesses are as tough as the guys who wear them. They feature coated, corrosion-resistant hardware, water-repellant and abrasion-resistant webbing and a build quality that is second to none. A patented triangular design gives Delta harnesses a shape of their own, so you can don them quickly and easily. Throw it in the tool-box or in the back of your truck, think you can tangle it? Just pick it up and it’s ready to put on, tangle-free. The Delta pad also incorporates a web spreading design, positioning webbing wider apart on shoulder straps to eliminate abrasion on your neck.

Specifications	
Body Belt	No
Brands	DBI-SALA
Buckle Type	Pass-through
Case Quantity	1
Chest Buckle Material	PVC Coated Steel
Connected Safety ID Equipped	Yes
D-ring Placement	Back
Harness Application	Arc-flash
Harness Size	Universal
Leg Buckle Material	PVC Coated Steel
Padding Location Type	None
Product Color	Black
Product Series	Delta
Product Type	Arc Flash Harness
Recommended Industry	Utilities
Subpelvic Strap	Yes
Tensile Strength (Imperial)	7000 lb.
Torso Buckle Material	PVC Coated Steel
Webbing Material	Nomex/Kevlar
Weight (Imperial)	4.3 lb.
Weight Capacity	310 lbs. (140 kg)
Weight Capacity (Imperial)	310 lb.
Weight Capacity (Metric)	140 kg
