

# 3M PROTECTA E200 Comfort Belt Style Fall Arrest Harness 1161631, Black, Medium/Large

**Model : 1161631**

## Product Details

- Comes with a comfortable and convenient work-positioning belt for hands-free operation when used with work positioning lanyards
- Softer and more robust hip pad is three times thicker (compared to previous 3M PROTECTA Fall Arrest Harness model) for extra comfort, durable and sturdy belt for tool bag-carrying convenience
- Conveniently placed front D-ring helps you stay balanced and centred
- Auto-resetting lanyard keeper provides easy parking and release of snap hooks or carabiners
- Impact indicators make it simple to inspect the harness for damage and help ensure it's safe to use
- Easy and clear identification of fall arrest anchorage points
- No loose web ends help you stay comfortable and tangle-free
- Tools can be secured while working at heights, to keep people and property safe anywhere below you
- Size: Medium/Large

3M PROTECTA Comfort Belt Style Fall Arrest Harness is our safety harness which provides reliable protection, comfort and convenience; now with upgraded features and a sleek, modern look.

For reliable protection, comfort and convenience in a variety of styles and configurations, use 3M PROTECTA Comfort Belt Style Fall Arrest Harness. Our comfort belt style fall arrest harness with horizontal leg straps has enhanced features including auto-resetting lanyard keepers, gear tools loops, as well as softer and more durable hip padding. Articulated rings on the horizontal leg straps allow the upper and lower body to twist providing greater freedom of movement. The rotating belt enables movement within the harness while working in restraint/positioning. The safe and conveniently placed front D-ring helps you stay balanced and centred. No loose web ends help you stay comfortable and tangle-free. A robust and durable belt provides easy tool-bag carrying. Impact indicators make it simple to check the harness for damage and help ensure it's safe to use. Covered identification labels help protect important information for the life of the harness.
