Model :

6700	Small
6800	Medium
6900	Large

Product Details

- Extremely lightweight full face mask with a low maintenance design for maximum comfort and simplicity of use
- Large polycarbonate lens for wide field of view and excellent visibility
- Bayonet connection fitting system to a broad range of filters to protect against gases, vapours and particulates
- Four strap suspension, easy to put on and take off
- 3M™ Cool Flow™ Valve provides easier breathing and reduced heat and moisture build-up
- Soft, hypo-allergenic elastomeric face piece

The 3M Full Face Mask 6000 Series offers lightweight protection and ease of use. The wide-view visor provides excellent visibility and high speed, medium energy (B) impact protection. Flexible 3M Bayonet Connection System allows for connection to a wide range of 3M particulate and/or gas and vapour filters.

Durable protection The 6000 Series respirator is crafted from lightweight, yet durable materials and features a soft silicone face seal that conforms to the wearer's face, along with a wide lens for visibility and eye protection. Premium comfort Equipped with our proprietary 3M Cool Flow Valve, a unique center adapter directs exhaled breath and moisture downward while reducing the occurrence of dirt and debris collecting in the valve. Versatile configurations This full face respirator is compatible with a wide range of 3M filters, cartridges, powered and supplied air systems making it a go-to choice for safety managers.
