

3M DBI-SALA Hook2Loop Bungee Tether.

Model : 1500047

Product Details

- Features a carabiner with screw locks that prevent accidental opens
- 6.8 kg (15 lb.) maximum capacity
- Tubular webbing
- Simply slides onto the handle of a tool in seconds
- Swivel spin top makes the tether tangle resistant

3M DBI-SALA Hook2Loop Bungee Tool Tether is engineered to last. Built to be more durable, it features a Self-locking carabiner, and is third party certified to a 15 lb. (6.8 kg) maximum capacity with 2:1 safety factor. This product meets ANSI / ISEA 121-2018 standards.

The 3M DBI-SALA Hook2Loop bungee tether will provide security for tools as heavy as 15 lbs (6.8 kg). Simply thread the loop through a pre-drilled hole in a tool and cinch it tight. The self-locking carabiner won't open or close unless you want it to, while the 5/8" tubular webbing will endure in harsh conditions.
