

3M DBI-SALA Ultra-Lok RSQ Self-Retracting Lifeline, Cable, 15 m

Model : 3504553

Product Details

- Use 3M DBI-SALA Ultra-Lok RSQ SRL to allow the user freedom of movement within the recommended working area as part of a complete fall arrest system
- Dual mode RSQ model for fall arrest and integrated rescue
- Top anchor swivel allows the block to align with the lifeline and avoid any torsion of the cable when the user is working.
- Lightweight and durable thermoplastic housing provides exceptional durability and is lightweight for easy handling.
- Stainless steel internal parts increase corrosion resistance and operational longevity

Our 3M DBI-SALA Ultra-Lok Cable RSQ Self-Retracting Lifeline (SRL) extends and retracts automatically, allowing the user to move and work within a recommended working area efficiently and comfortably at normal speeds. This innovative RSQ model features additional descent modes for rescue scenarios. This SRL with internal energy absorption conforms to CE standards EN360 & EN341 Class D.

Specifications

Anchor Connection Type	Carabiner
Brands	Ultra-Lok
Connected Safety ID Equipped	No
Harness Connection Type	Swiveling Snap Hook
Housing Material	Polyurethane
Lifeline Hook Material	Zinc Plated Steel
Lifeline Length (Metric)	15 m
Lifeline Material	Galvanized Cable
Manufacturing Origin	USA
Mounting Type	Overhead Anchor Point
Product Series	Ultra-Lok
Product Type	Self-Retracting Lifeline - Cable
Recommended Industry	Construction, General Industrial, Mining, Oil & Gas, Transportation
Specifications Met	CE EN 360
Weight (metric)	8.5 kg
